

Welcome to Thailand!

Navy League Siam is a civilian organization dedicated to the support of the men and women of the sea services and their families.

The Navy League of the United States was founded in 1902 with the encouragement of President Theodore Roosevelt:

“It seems to me that all good Americans, interested in the growth of their country and sensitive to its honor, should give hearty support to the policies which the Navy League is founded to further. For the building and maintaining in proper shape of the American Navy, we must rely upon nothing but the broad and farsighted patriotism of our people as a whole, and it is of great importance that there should be some means by which this patriotism can find an effective utterance. Your society offers just the means needed.”

Our main mission is to provide hospitality to U.S. Navy vessels visiting the ports of Thailand, to generate awareness of the importance of the United States and Royal Thai Navies, and to foster good US-Thai relations.

The Navy League of the United States - Siam Council, Thailand, sponsors many activities throughout the year, such as specialized tours of visiting vessels, networking opportunities, educational talks, excursions, and camaraderie.

Our members come from many nations and speak a variety of languages, although we conduct our official business in English.
